Lantern Library Opening

Join the Harriet Tubman Effect community in a communal record-keeping of the progress we've made in the past two years. Join leaders in the theater community who are building directories and technology for job placement. Engage in a discussion about how these organizations can work together and develop shared values and safe practices for job placement in the theater industry.

Brunch for Justice Leaders in Theatre

In collaboration with HTE and Producers Hub, we are inviting members of non-profit organizations and companies that share the objective of confronting systemic inequity in the commercial theater space to join us on Saturday, June 17th. At this gathering, we hope to expand existing relationships between organizations and begin to build bridges where there are none.
